

# Ratio 4-in-a Row

**Materials:** three 6-sided dice and two color counters

**Directions:**

- Roll 3 dice at the same time and select 2 dice to create a ratio.
- Use a color marker to cover one (1) equivalent ratio on the board.
- Cover 4 squares in a row to win (horizontal, vertical, and/or diagonal).
- **Option:** If you cover a square using a unit rate you earn a free turn.
